

# GRAND BOIS

## Easy RINKO RANDONNEUR

9.57kg

with a bag and tools

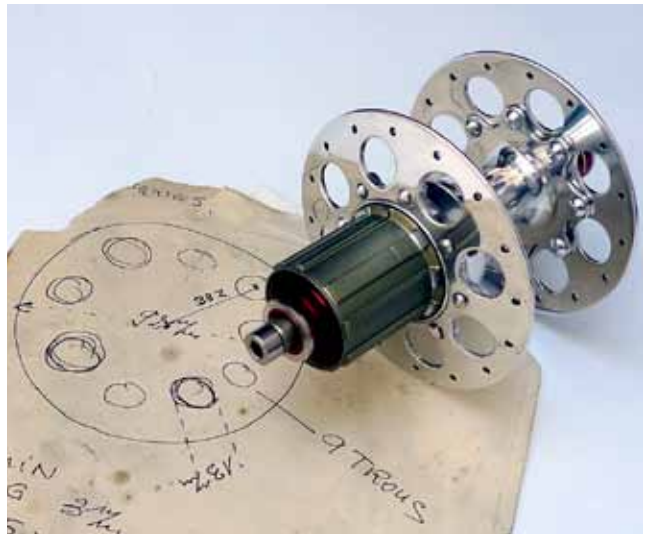

Ikuo TSUCHIYA  
Cycles GRAND BOIS Inc.

22nd June 2017

9.07kg without a bag

In Japan, we have to put a bicycle in a bag on a train. The rule from 50 years ago, brought an unique evolution to the Japanese Randonneurs for RINKO touring. We developed a model for RINKO and have supplied for these years in Japan. And this time, we tuned up the ER model with our whole technic and knowledge.

GrandBois typeER special edition for Concours

Frame tubes	Kaisei 4130R Cr-Mo 0.7/0.5/0.7 ④

Country of origin ④ Japan ① Taiwan ⑥ France ③ Germany ① Italy ④ USA ③ China

what is the Easy RINKO

# Qu'est-ce que le RINKO facile?

Facile à enlever le garde-boue avant

Facile à enlever le garde-boue arrière

Au Japon, nous devons mettre un vélo dans un sac sur un train. La règle, il y a 50 ans, a apporté une évolution unique aux Randonneurs japonais.

Remove pedals and fenders

Retirer les pédales  
et les garde boue

Remove the wheels

Retirer les roues

Put them into a RINKO bag

Mettez-les dans  
un sac RINKO
