Long Description

Life Extension Mix saves time and money by combining the most popular nutrient supplements in one product, eliminating the need to take separate bottles of B-complex, vitamins C and E, mineral supplements and much more that would be required to achieve the same effects. Life Extension Mix supplies the most powerful antioxidants, including water and fat soluble vitamin C, the ideal form of alpha vitamin E, and plant extracts that help protect against cellular DNA damage. Other ingredients in Life Extension Mix enhance beneficial DNA methylation patterns, and help maintain glycemic control and healthy levels of LDL in those already within normal range. Life Extension uses standardized herbal extracts to ensure that our products contain the highest level of biological activity.
